

1-877-BOLT-631 (877-265-8631)

Bolt Express a Toledo, Ohio based expedite carrier is going where no other expedite company has gone before by allowing their contractors to choose their own pay structure.

Beginning July 26th, Bolt Express contractors will be able to select how they will be paid, either by percentage, mileage or flat pay.

Mark Heiges, Recruiting Manager at Bolt Express says that in today's expedite market, "contractors must accept the pay structure that companies are offering to them." Bolt Express realizes that not one pay plan fits all drivers.

As a partner with our contractors, Bolt Express values our relationships with our owner operators and wants them to have the ability to select a pay structure that they feel best fits their business plan.

Bolt Express provides a 24-hour, seven days a week, dock-to-dock, exclusive use transportation service for rush-critical shipments throughout the 48 states and Ontario, Canada.

Owner operators interested in the career opportunities at Bolt Express should call today, 866-USE-BOLT (866-873-2658) Option 3.
