January 1, 2010

To Our Customers and Logistics Providers:

On December 12, 2001, U.S. Customs & Border Protection (CBP) along with Canada Border Services Agency (CBSA), signed the Smart Border Declaration, announcing a 30-point action plan to improve the secure flow of goods and people at the border.

Free and Secure Trade (FAST) is a joint border initiative that allows pre-approved importers, carriers, and drivers the benefit of an expedited border clearance.

We are a member of the Customs-Trade Partnership Against Terrorism (C-TPAT) and have completed the necessary steps to be approved for FAST into the U.S. Our trucks are now equipped with windshield decals or transponders that can be read by Fast equipped ports of entry. We are an approved carrier under the Partners in Protection security initiative for Canada.

C-TPAT and PIP involves the complete supply chain being secure; the importer, the carrier and the driver. On March 23, 2005, Customs Border Protection outlined the minimum-security criteria. New importers will need to meet or exceed to security criteria before they will be "certified" and eligible for benefits. Current C-TPAT members will have a gradual, phased implementation approach.

In order for us to continue to provide premium transportation services, we require your co-operation. Please take a moment to complete and return the following questionnaire indicating your participation or certification in these programs. Please provide C-TPAT, PIP and CSA certificates for our records. Should you have any further questions, or if you would like more information on our Security programs, please contact us at Bolt Express, LLC, (866)873-2658.

Thank you in advance for your assistance. Please fax the completed questionnaire to (419)729-1418.
